THURSDAY DECEMBER. 9, 188

A PROPOSITION.

In the name of the town of Reno we make the following proposition to our neighboring towns of Carson City, Gold Hill and Virginia. Let each cine matter on hand. In regard to town appoint committees and secure all the aid possible towards building smelting works. Let them gather all the statistics to be had, and when sufficient money is ready let the smelting works be erected at the point that will be the best for the success of the works and for the customers who will have ore to work. An executive committee could be chosen that would ated it is only from 5 to 7 per cent.

Even in the present epidemic at our be satisfactory to everybody, and not only home experts but those from abroad could be consulted We abroad could be consulted. We pledge the people of Reno to stand by the outcome of any such scheme as this, and work heartily for the success and prosperity of the works wherever built.

THE ALTA DEAL.

The San Francisco Daily Report has not much faith in the Alta min e. It publishes several interviews with experienced disinterested stock operators, whose verdict is unfavorable regarding the prospects of any good coming out of Alta. One of them made these sensible observations. which we commend to the consideration of our readers who may be terapted to "get in" just now:

"No, sir, no Alta for me. The formation is not favorable for a big ore body—every expert who is honest will admit that—the character of the assays from the drillings is only known to a few people, and even if the mine should get a slice of ore the facilities for working are poor. You know that they have a shaft down 1700 feet and then an incline from that point to the 2050. That is simply a prospecting outfit. To put the mine in working condition would require eighteen months. The development will be made in the stock market, you mark my word, and when market, you mark my word, and when the game is done you will such a scattering as you never saw before. My ewn notion is that before the assays of those drillings are made public, water will be struck and there will be a long delay. Meantime, though the insiders will be buying all the time, the stock will go all to pieces."

THE SMELTING WORKS.

The Carsonites are working like beavers for smelting works. They all pull together at the capital when they want anything. In Reno there are half a dozen sides to anything in the way of public improvement or enterpull against every one else. Public meetings have been held in Carson and local capital has been subscribed. A committee has gone to Virginia City to see what could be done there. Meanwhile Virginia City is after the smelting works herself. We cannot all have them, however, and although we believe Reno is much the best place for them, because we get the cheapest wood in the State, because we have abundant water power and because we have a mountain of base ore at the edge of town, yet if Reno cannot get the smelting works, we hope Carson will. While neither of the three towns can get the works if opposed by the other two, yet if all Sirs: My daughter Jane thanks your plaster. work together one can be built, and the benefit to the whole country would be immense. Local jealousies might well be laid aside in this business, and a more patriotic spirit invoked to govern western Nevada.

The London Times says the United States finances may excite envy all over Europe. Its operations are unprecedented, and place the United States on a level with the most staid and best paying communities of the old world. That is the rightful position of the United States. With its regard for its engagements and its limitless resources, its future looks very bright.

The rapidity of modern travel is illustrated by J. W. Mackay's recent trip to Europe. He left the Comstock Nov. 14, and arrived in Paris the there is an ingenious nasal Injector for Dec. 4. As he remained in New York three days, his actual traveling time For sale by Osburn & Shoemaker, Druggists, was only seventeen days.

RenoEvening Gazette DO NOT NEGLECT VACCINATION.

Several new cases of small-pox are reported in San Francisco every day, and there are a number of cases in Stockton and Oakland. Over a score are reported on the Comstock. Reno bas luckily escaped with but one case, but that proved fatal. Now, while the danger of contagion is not imminent, is the time for everyone to get vaccinated. The doctors are now all supplied with active and pure virus. Small-pox, we repeat, is likely to appear again in Reno any day, and then there will be a panic, and the doctors will be likely to use up all the vacthe efficacy of vaccination, there is little room for doubt. Dr. Simpson, a member of the S. F. Board of Health, thus speaks of its value as a preventive and a palliative of small-pox, as quoted in the Report:

"The fact showing the power of accination in modifying small-pox, if it should happen, and disarming its terrors are most ample. The mortality of natural small-pox is from 30 per cent., while in those vaccincases of small-pox in 30 years, of which the unvaccinated died at the rate of 37 per cent., and the vaccinrate of 37 per cent. The pitting and disfigurement in the unvaccinated was frightful and such as to change completely their countenance. whilst in the vaccinated it was merely perceptible, some not even presenting a single mark."

THE BIGGEST MAN,

The biggest man in the world is Chang, a Chinaman now on exhibition in New York. He is nine feet high and proportionately developed. He is 33 years old, the son of a Pekin tea merchant; is well educated, speaking English, German, French, Italian and Spanish, and is a perfect gentleman in his manners. On his hand sparkles a diamond worth \$1,400, given him by the Emperor of Russia. Change was imported by Barnum, Bailey and Hutchinson, and is to be paid \$500 a week for one year. Chang's exact height is not known. When asked by a Sun reporter what it was, he made the following answer:

"I have never been measured, Monsieur. With our people it is a super-stition which takes the form of a religious creed, that no man must be measured until dead. I would rather die than allow myself to be measured In fact, if I were measured I would die at once, I fear. I am, however, somewhere in the neighborhood of nine feet. I will stand up and you can stand beside me and judge for yourself."

THE COMSTOCK.

The Comstock, considered as a whole, has been a poor mining investment since the bonanzas were practically worked out. During the present year the assessments delinquent have amounted to \$6,812,000. Only two mines have paid a dividend this way of public improvement or enter-prise, and each side has a clique to clared a dividend of \$1 last January and shortly after assessed its stockholders \$1 50. Con. Virginia has paid two dividends of fifty cents per

The Sun for 1881

Everybody reads the Sun. In the editions of this newspaper throughout the year to come everybody will find: I. All the world's news, so presented All Linen Table Cloths, that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. The Sun long ago discovered the golden mean between redundant fulness and unsatisfactory brevity. Ladies' Splendid Merino

Il. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning the Sun prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates, and troubles. This story is more varied and more interesting than any ro-mance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every

IV. Honest comment The Sun's habit is to speak out fearlessly about

men and things.
V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Dem ocrat or Republican.

VI. Absolute independence of partisan organizations, but unwavering loyalty to true Democratic principles. The Sun believes that the Government which the Constitution gives us is good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the years immediately following will probably decide this supremely important contest. The Sun believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings

for imperial power.

Boss Coffee, Tea Pots & Urns It is the Boss! Why? Because it produce Boss Coffee.

Boss Coffee.

It makes rich flavored Coffee! Why? Because all the aroma and food is retained.

It beats them all! Why? Because it saves 100 per ce. t over bolled Coffee, which is not Coffee, but bitter water. Second—Because it saves 50 per cent over any other method of making Coffee. Third—Because it saves eggs and trouble of clarifying. Fourth—Because it makes Coffee as cl ar as red wine. Fifth—Because it takes only two minutes to make Boss Coffee.

The Boss works as well on Tea, and saves 25 to 50 per cent.

e Nevada & Oregon R. R.-Hayde Hill, Susanville and Praitsville Pros pects-Mining Operations in Plumas Co.-290 Stamps Running Near Greenville-Death of Col. Bidwell, the Leading Man of Plumas.

TAYLORVILLE, Dec. 1.

The real outlook for Lassen county is the railroad and lumber. Susanville is making a commerciable effort to bring the railroad into the town and her heavy timber north. It is our opinion that it will not only be much to the advantage of Susanville for the Nevada & Oregon R. R. to go by Susanville and the heavy sugar pinery near it, but for the railroad company as well. The road will be twenty-five to thirty miles longer to also be fifty miles better perhaps. This extra cost in miles is saved in ber, all of which it may have along side of the track on land owned by freight, passenger and mails.

ver. There are no well-defined rock, ledges or quartz. It seems a jumble, all. The present mode of reduction only saves about one-half of the assay value. Better mills, and more expe rienced superintendents might very much increase the yield of the precious metal.

As we have said, Susanville is hopeful ments are going on in the way of southwest, which may ere long cause the sound of many stamps on the mountain sides over against Susanville. We saw some ore which showed the native gold to the naked We hope there may be millions

This city is a small one, but has abun dance of some things. It is surrounded with Sierra's heaviest forest. It has sugar pines eight and ten feet through. Her streams abound in the best of mountain trout. Her snows in winter cannot be exceeded in quality and quantity. She has mines also. The Savorcool is said to be a good mine. There will be a mill of forty stamps running on this mine in a few

Plumas County.

And now Plumas county is making more progress in mining perhaps, than any county in California. H. C. This mill is one of the most complete we have ever examined. The Green Mountain mine is looking well, with plenty of ore in Lodge No. 13, F. and A. M., on Saturday evening, Dec. 11; also annual election of officers. low \$3 00 per ton, leaving more than one-half of the value of the ore as clear profit. Other mines are coming to the front also. Col. Bidwell is managing at Greenville or near by. The Green Mountain mine has 92 stamps, Cherokee 20, Gold Stripe 39, Plumas National 30. Six Frue concentrators are attached to these mines. It is safe to say that the energy of Mr. Bidwell has done much for Plumas Co. Much money has been scattered among the laborers and merchants, and now it is expected thousands in bullion will come out of the mines being developed by him. Other companies are at work in this same region, as follows: The Indian Belle Co 24 stamps, Moultor 10, Northern Eureka 10, New York Mill 10. These with the Savorcool, ten miles north, near Prattville, make a total of 290 stamps near Greenville in Plumas

So, suddenly passed away Plumas county's most successful business man. and the only man who could manage his wide and extensive mining operations. His death is a great loss, not only to his immediate friends, but the community and business circles. Being at Quincy at the time of his death the writer, as well as well as many others, came to Greenville on Monday to attend the funeral ceremonies. All he business houses and offices, and nany private dwellings were draped in mourning. All business was sus-pended for the day. The funeral was the largest ever known in the county. The church perhaps did not hold more than one-half of the persons present.

Peter Hall, who did not appear before the Court on Monday, has since given himself up. He receive the same sentence as the other fishermen. The two men reported up north have not yet put in an appearance.

Cattle Perishing in the Snow.

Says the Truckee Republican: Last Thursday morning several men started from this place for George Humphrey's ranch, in Sierra valley, with sixty-one head of work cattle belonging to Messrs. W. A Deserted Camp.

Litely. Parson Jenvey, however, today united a young couple who departed on the noon train for Virginia.

The groom was John Wright, foreman of the Virginia Water Co., and the bride was Miss Mamie A. Biggs, of Reno.

Seems a calamity, coming just at this time. His many interests for himself, his county and this region would allive and carry out his plans and work. His death occurred at about 8 o'clock to Striginia Water Co., and the bride was Miss Mamie A. Biggs, of Reno.

For Men Only. The masculine mind is already be-

ginning to wrestle with the problem of what to buy for Christmas presents to lady relatives and friends. There is no better place in town in which to solve this troublesome question than Loomis' dry goods establishment. It contains hundreds of things suitable for gifts to ladies. The buyer can there make a selection that will be judicious both as respects the capacity of his purse and the taste of the givee. Gloves, hosiery, handkerchiefs, scarves, laces, etc., present a wide range for choice. A new dress never yet failed to please a woman under 150 years of age. Then there are shawls, cloaks and a profusion of knick-knacks, what-do-you-call-ems and thingumies that are dear to the feminine heart though cheap to the masculine purse. And if the male buyer should be con fused by the rich resources of Mr. Loomis' establishment he can there have recourse to cultivated feminine taste to help him out of his difficulty.

The Bullion Seized in Transit.

Sheriff Walker still retains posses sion of the bag of bullion taken from Wells, Fargo & Co.'s express car, under a writ of attachment in the suit of Jerry Schooling vs. The Arizona Mining Co. of Unionville. The attach ment will no doubt hold, and the bullion will probably be sold for Mr. Schooling's benefit in satisfaction of

Small-Pox on the Camstock.

The Comstock people have roused to a sense of danger from small-pox. A "small-pox policeman" has been appointed, whose sole duty is to attend to small-pox cases. One new case was reported in Virginia yesterday. Two other new cases were heard of at a late hour last evening, and were to be investigated to-day.

Cota Given Up.

SAN FRANCISCO, Dec. 9. Shortly after midnight the Mexican Cota was brought to the city prison by the Mexican Consul and given in charge to be produced to-morrow. In view of this action, it is probable that no further steps will be taken for the arrest of the commander of the "Democrata."

Peculiar Appearance of Mt. Rose.

RETIRING FROM BUSINESS.

A POSITIVE CLOSING OUT SALE

Watches, Clocks, Jewelry, Sliverware, Spectacles,

Etc., Etc., Etc. S. N. DAVIDSON, has concluded to retire from business, and leave town. All who wish fine and rich goods, suitable for holiday gifts, should avail themselves of this opportunity and buy while his stock is complete. All goods will be sold at cost and less than cost. Store fixtures for sale at a great bargain. All indebted to me must settle at once. Watches and Jewel-ry left with me for repair must be called for by the 1st of January, otherwise they will be sold to defray labor thereon. Call early and be convinced.

TALK IS CHEAP

And So Are FINE Clothing BOOTS, SHOES,

If you go to the right place to get them. This is a mighty important point, tor some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost an I even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a proft on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of decieving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties. Orders from the country promptly atended to. Look out for the White Building with the Gold Sign.

MIDDLE-AGED MEN. There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a veskening of the system in a manner the paent cannot account for. On examining the urinary deposits a ropy sedument will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the canes, which is the second stage of seminal weakness. Dr. S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
